SUMMARY STATEMENT

I am an innovative Frontend Developer with 4 years of experience building and maintaining responsive websites in various industries. Proficient in HTML, CSS and Javascript with working experience with modern libraries and frameworks such as Vuejs and Reactjs. Open to relocation on a global level.

WORK EXPERIENCE

Senior Frontend Engineer and Engineering Co-lead, Spleet Inc. - April/2021 - Present -

Lagos, Nigeria

Spleet is a leading proptech company in Africa. Building the future of structured and equitable access to housing where everybody gets a fair chance at efficient and affordable living spaces.

- Building Frontend and Product design team (hiring, knowledge transition).
- Involved in the product lifecycle: (Spec process, UX design, Tech Design, implementation).
- Contribute to company processes: task flow, testing, translation.

Product Designer and Frontend Engineer, Spleet Inc. - January/2019 - April/2021 -

Lagos, Nigeria

- Designed and continuous improvement on Spleet UI/UX design
- Converted UI to web application using HTML, SCSS, jQuery and Bootstrap
- Built, implemented and maintained a stable codebase while making the application more user-friendly using Vuejs.
- Developed a Progressive Web Application to improve user experience and make the application more accessible on mobile.
- Created HTML email templates and newsletter designs that work with all email clients for marketing campaigns.
- Collaborated with the Customer Success team as Technical support for new features and products being launched.

UI/UX Developer, Signal Alliance - January/2018 - December/2019 - Lagos, Nigeria

Signal Alliance is a global professional services company providing IT consulting and services focused on artificial intelligence, business analytics, cloud, etc.

- Designed User Interface and prototyped pages for new and existing websites.
- Translated designed wireframes and mockups into responsive interactive features.
- Optimised web applications for maximum speed and scalability.
